BRI Graduate Scholarship Program

Want to do a neuroscience research in Japan?

Brain Research Institute, Niigata University was established in 1967 as the first affiliated research institute of the national universities in Japan on brain and related fields. BRI has the world-class collections of neuropathological specimens and advanced imaging analysis technique along with animal models and genomic data base. Embracing both basic neuroscience research branches and clinical departments, BRI enables creating a seamless research environment. BRI is pleased to offer a scholarship to international students who commit to obtaining a graduate degree at the institute.

Who is Eligible?

International students entering graduate programs at BRI.

What is it Worth?

- A monthly stipend of 100,000 JPY for up to four years
- Additional financial support in return for research assistant engagement (approx. 300,000 – 400,000 JPY per year)
- Tuition exemption (conditions apply.)

How to Apply
