

**第7回 新潟大学脳研究所共同研究拠点国際シンポジウム  
BRI International Symposium 2017**

**Alzheimer's disease: Narrowing the gap between basic science  
and clinical application**

**Organizer: Joint Usage/Research Center for Brain Research**

**March 10 (Fri) 1 pm – 11 (Sat) 12:30pm**

**Center for Integrated Human Brain Science (6F), Niigata University**

**Fee: free**

***Topics to be presented include***

- novel therapeutic targets for Alzheimer's disease
- clearance and metabolism of amyloid- $\beta$
- genetic and epigenetic contributions to Alzheimer's disease
- supercentenarian and anti-dementia factors
- imaging genetics of Alzheimer's disease
- new players in pathogenesis in Alzheimer's disease

***Confirmed Speakers***

Toshiharu Suzuki (Hokkaido University)

Masaki Nishimura (Shiga University of Medical Science)

Edward H Koo (UCSD, USA)

Mitsunori Matsumae (Tokai University)

Vincent J. Huber (University of Niigata)

Jeffrey Iliff (University of Rochester Medical Center, USA)

Atsushi Iwata (University of Tokyo)

Yasumichi Arai (Keio University)

Kun Hoo Lee (National Research Center for Dementia, Korea)

Taisuke Tomita (University of Tokyo)

Naoyuki Sato (National Center of Geriatrics and Gerontology)

Masayasu Okochi (Osaka University)
