

2nd Joint conference of BRI and NIPS

Glia world in neurological disorders

Feb.18 (Mon)

- 16:30 Opening remarks
17:00 Presentations by Young Investigators.
18:45 Poster presentation by Young Investigators.

Feb.19 (Tue)

9:00 ***Manabu Natsumeda (BRI: Niigata)***

Elucidating resistance mechanisms to temozolomide in gliomas.

10:00 ***Izumi Kawachi (BRI: Niigata)***

Glial pathology in multiple sclerosis and neuromyelitis optica.

11:00 ***Kazuhiro Ikenaka (NIPS: Okazaki)***

Cause for impaired remyelination in chronic demyelinated lesions.

13:00 ***Zbigniew K Wszolek (Mayo Clinic, Jacksonville)***

HDLS - POLD - ALSP Spectrum.

14:00 ***Takeshi Ikeuchi (Niigata: Niigata)***

An emerging role of perturbation in CSF-1R signaling in pathogenesis of Hereditary Diffuse Leukoencephalopathy with Spheroids (HDLS) and microglial dysfunction.

15:30 ***Junichi Nabekura (NIPS: Okazaki)***

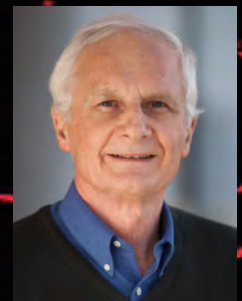

Microglia intervention in the healthy and damaged neurons.

16:30 ***Richard E Stanley (Albert Einstein C.M., New York)***

Regulation of microglial development and of neural progenitor cell differentiation by the CSF-1 receptor.

17:30 Closing remarks

Seminar Hole (6F), Center for Integrated Human Brain Science, Niigata University

岡崎生理研の著明な脳科学者、メイヨーとアルバートアインシュタインのグリア研究の第一人者が新潟にいらっしゃいます。新潟大学旭町図書館の先の統合脳機能センター6階です 入場無料、学生さんも歓迎します 問い合わせ 内線 0684 小野寺
